1. Executive Summary

The national unemployment rate increased by 0.5 percentage points from 26.7% in quarter one of 2018 (Q1:2018) to 27.2% in quarter two of 2018 (Q2:2018) (Q-o-Q). Conversely, Y-o-Y, the unemployment rate declined by 0.5 percentage points. Between Q1:2018 and Q2:2018, the national employment level declined by 0.5%, from 16.38 million in quarter one to 16.28 million in quarter two, while the number of unemployed people increased by 102 000 (1.7%) to 6.1 million. Quarterly, most job losses nationally, were in **Manufacturing (105 000)**, Community services (93 000) and Trade (57 000). Significant losses.

Coupled with the technical recession, hikes in petrol prizes and other essential services, it has become more urgent that we implement localization, and support small manufacturing businesses. The President has called on all South Africans to find solutions to the rising unemployment, and identify solutions to job retention, job creation blockages and opportunities that each social partner (government, business, labour, community) can work on to stimulate greater participation in the economy. This includes finding solutions to unlock the bottlenecks identified in job creation including where relevant addressing policy and regulatory uncertainty to unlock inclusive growth and employment.

It is for this reason that the rollout of the Gauteng Township Manufacturers Programme and Launch of the Gauteng Township Manufacturer Association is being proposed.

2. Background

Manufacturing is one of the critical labour-intensive sectors with great potential in terms of employment creation and stimulating economic growth. Small township businesses in this sector continue to face challenges such as:

- a) Access to Markets / Competition;
- b) Lack of entrepreneurial skills;
- c) Lack of funding;
- d) Technical skills shortage; and
- e) Product testing and accreditation barriers.

In response to the above challenges GEP continues to drive interventions aimed at promoting the growth and sustainability of township-based manufacturing SMME's and Co-operatives with a view to enhance their level of participation in the Gauteng economy. The Agency will leverage on strategic partnerships with government departments, DFIs and the private sector to rollout programmes that will create skills development, incubation and mentorship, access to markets and enterprise supplier development opportunities for small township manufacturers.

2.1 Objectives of the Gauteng Township Manufacturers Programme:

The Manufacturing Development Programme will seek to achieve the following short-medium term objectives:

- Identification and registration of Gauteng manufacturers (central manufacturers database);
- SMME and Co-operative needs assessments;
- Short – term training and skills development;
- Product testing and accreditation support;
- Matching of small manufactures to established businesses for mentorship, skills transfer and technical support (Small to Big: S2B Networks);
- Provision of Procurement Opportunities: Enterprise Development Support linkages between township manufacturers, public and private sector (30% ESD scorecard); and
- Creation of Access to Market platforms: networking opportunities to showcase township manufactured products.

The above listed interventions are targeted to benefit 500 small businesses in the short – term with an estimated job creation potential of 5 per SMME (i.e. 2000 jobs in the short to medium term). The extension of this programme beyond initial 6-months period and the expansion of the manufacturers database would crowd in other latent business opportunities, thereby increasing employment multipliers as a result of value-chain spin-offs.

3. Gauteng Township Manufacturers Engagement Session

A critical starting point in the implementation of this programme will be the introduction of a platform for township manufacturers and other key role players such as government departments, municipalities and public entities and key private sector stakeholders to

engage on issues relating to the growth of the sector.

GEP plays a pivotal role in transforming the Gauteng township economy as well as promote, foster and develop small enterprises. It is on the above basis that GEP will be hosting a two-day Gauteng Township Manufacturing Engagement Session on the 27-28th of February 2019 targeting 500 township manufacturers. The aim of the Engagement Session is to bring together business owners, industry leaders, government officials, capital providers and professional experts to discuss challenges and to brainstorm solutions. The success of the Gauteng Province depends on a strong and innovative manufacturing base. As a Government institution within the advancement of entrepreneurship; it is GEP's intention to ensure that it continues to work together with its strategic partners in order to promote prosperity through manufacturing, science and innovation.

The Engagement Session will provide Township manufacturers with an opportunity to explore growth for their small manufacturing businesses within the formal manufacturing sector, as well as to support the supplier development programmes and the development of Black Industrialists.

The Engagement Session will further attract Township Based Manufacturers, Private Sector Procurement and ESD Heads, Procurement Heads in the Province (including municipalities); The DTI, Accreditation Institutions (SARS, NHRB, etc.), Proudly SA and Productivity SA.

3.1 Objectives of the Engagement Session:

- 3.1.1 To create a platform to showcase township manufactured products, capacity, quality, and, build a database of local manufacturers;
- 3.1.2 Match local manufacturers with big Industries;
- 3.1.3 Provide Procurement Opportunities by allowing speakers from Public and Private Sector to share opportunities within their designated products;
- 3.1.4 Launch the Gauteng Township Manufacturers Association which will be a platform that keeps reliable details of all existing manufacturers; and
- 3.1.5 Propose a Quarterly Manufacturer Forum which will be part of the monitoring and reporting process to give effect to, and ensure that procurement at Townships take place.

By doing this, the GEP will assist in the realization of the following, which were recommended in the report presented on February 2019, titled, The Impact of Procurement Spent on the Employment Growth in Gauteng:

- Promote industrialization and localization to optimize the impact of Procurement Spend on employment growth.
- Procurement Spend can be used as an effective instrument for employment creation and economic growth in the province.

The success of the Gauteng Province depends on a strong and innovative manufacturing base. As a Government institution within the advancement of entrepreneurship; it is GEP's intention to ensure that it continues to work together with its strategic partners in order to promote prosperity through manufacturing, science and innovation.

The Engagement Session will further, provide Township manufacturers with an opportunity to explore growth for their small manufacturing businesses within the formal manufacturing sector, as well as to support the supplier development programmes and the development of Black Industrialists.

4. Intended Outcomes

The objectives of the Township Manufacturers Engagement Session as briefly alluded to in the Executive summary are:

- 4.1.1 To create a platform showcasing township manufactured products, capacity, quality, and, build a database of local manufacturers: Currently, there is no single, reliable database available that can be shared with buyers from both Government and Private Sector. This places township manufacturers in a disadvantage place as they may not be easily identified when opportunities arise.
- 4.1.2 Match local manufacturers with big Industries: It is a well recorded fact that small businesses stand to grow faster and remain sustainable when they work closely with experienced, and big businesses. The level of technical support received and skills transfer gained from such partnerships are very important. The Engagement Session will encourage B2B Partnership, we propose this partnership be referred to as S2B (Small to Big) Networks.
- 4.1.3 Provide Procurement Opportunities by allowing speakers from Public and Private Sector to share opportunities within their designated products: The 30% set

aside and ESD scorecard targets can be achieved by providing procurement opportunities to small businesses.

4.1.4 Launch the Gauteng Township Manufacturers Association (GTMA) which will be a platform that keeps reliable details of all existing manufacturers: GEP will be secretariat of the GTMA, and be responsible for tracking procurement spend, compliance by township manufacturers, and ongoing support.

4.1.5 Implementation: A proposal for a Quarterly Manufacturer Forum will be made. The Forum would include township manufacturers, accreditation institutions, procurement and planning heads from the Public Sector and Private sector, including Heads of ESD.

4.1 Benefits of the Gauteng Manufacturers Association:

- 4.1.1 Leading advocate for a pro-growth agenda and the powerful voice of the Gauteng township manufacturing community;
- 4.1.2 Voice that reduces the cost of production and tear down barriers to growth;
- 4.1.3 Open Procurement Opportunities for township manufacturers;
- 4.1.4 Access to and information on the key issues affecting manufacturing business and the bottom-line;
- 4.1.5 Providing tools required to expand into global markets and grow their businesses.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

- a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
